

Emma wins gold in Skills event

MURDOCH TAFE student Emma Hunter has a bright future in the floristry industry which was evident when she won gold at the recent regional World Skills event this month.

Emma, who also won gold at the Royal Show floristry competition just two weeks earlier, said that the students were given

five things to make from the flowers supplied.

"There were a fully wired crescent bridal bouquet, trailing bridal bouquet, clustered wreath, basket and a formal linear bouquet.

"We had one hour to complete each item except for the wired crescent for which we had two

hours," she said.

Emma will now compete in the national world skills competition in Brisbane next May.

She said she had big plans for the future and she would hopefully run her own shop one day.
