TOOWOOMBA resident Liam Janetzki was pitted against the nation's top refrigeration apprentices in some tough challenges, but still managed to keep his cool.

The fourth-year apprentice at QBuild Toowoomba managed to take home the gold medal in the refrigeration category at the 2010 WorldSkills Australia National Competition of trade and skill that was held over the weekend.

"It was tough, but definitely exciting," Mr Janetzki said.

"I'm pretty excited about going to the world finals in London next year and seeing the sights.

"We've had at least one, possibly two Toowoomba people who have won the international competition in refrigeration before so Toowoomba must have some pretty good quality refrigeration mechanics."

Toowoomba TAFE student Jade Strack won the bronze in the auto electrical category of WorldSkills and Penny Seaniger from St Saviour's College won the bronze in the business services category.

I'm pretty excited about going to the world finals in London next year.
